

My New Electric Meter Does What?

Did you know your new “SMART METER” does more than measure your electricity?

HEALTH

It emits radio frequencies proven to be above safe levels.
Many people experience adverse health effects resulting from the meters.

SAFETY

There have been numerous fires and explosions caused by the meters.
Meters and appliances have been known to burn up or explode
At least 2 known deaths have occurred in fires caused by smart meters.

PRIVACY

It wirelessly transmits data about your electricity usage.
It gathers information ABOUT YOU that you may not wish to share.

CONTROL

Power company can remotely regulate or cut off your power.
Even remotely shut off your A/C or change settings on your thermostat.

COST

Some electric bills have been known to double after SM installation.
Plus, you're paying to give up all of the above!

Wouldn't you like to have a choice?

Call or Email your State Representative as shown
on reverse side of this flyer.

Tell him or her to support legislation that will:
Allow us to keep our analog meter or
have our smart meter replaced with an analog meter at no cost.
